

HUUP

Design Jouni Leino

Huup modules are approachable and functional, with a clear aesthetic and a touch of wit. Made from high-quality materials, they convey sophistication and durability.

These modules are highly adaptable, effortlessly fitting into various settings, from contemporary offices to traditional spaces. Their modular design allows for easy expansion and adjustment, which is ideal for dynamic spaces.

Offering comfortable seating solutions, they are suitable for lobbies, corridors, lounges, and various public areas like cultural centres, museums, and educational institutions. Whether placed in modern or historical buildings, Huup modules enhance aesthetics while providing practical seating options.
