Environmental product profile

Key features of KOPA:

- Sophisticated design by Orlandini Design.
- The collection includes a sofa, a lounge chair and an armchair.
- The sofa offers a pleasant sink-in feel – elastic webbing and layered foam construction ensure a high level of comfort.
- The armchair adapts to the back thanks to a specialised technology with a zigzag spring used in the backrest.
- A wide selection of base options and fabric collections.
- Two-colour combinations are available.

Sustainable producer credentials:

- 100% renewable electricity used in production.
- [Comprehensive annual sustainability report.](#)

ISO 14001

ISO 45001

ISO 9001

Potential sustainable building contributions:

- These attributes can help you achieve criteria towards LEED, BREEAM, SKA, and WELL building certifications.

Product quality:

- [10-year warranty.](#)
