

Nova C

GREEN
FURNITURE
CONCEPT

Modular by nature

Nova C is a modular seating concept that connects people to places while maximising both space and comfort. Its flowing design allows for configurations as unique as your space, shaping environments that invite interaction and movement. Customisation extends beyond shape, with a range of colours, accessories, and integrated greenery options that enhance both aesthetics and well-being.

With a plug-and-play concept, Nova C is easy to configure and reconfigure, adapting effortlessly as your needs evolve. Made with responsibly sourced materials, it is designed for long life cycles and easy maintenance, ensuring your space remains both functional and aesthetically timeless. A truly future-proof solution, Nova C combines adaptability and durability to meet the ever-changing needs of dynamic public spaces.

ENDLESS FLEXIBILITY, UNIQUE IDENTITY

Nova C's flexible, modular design effortlessly adapts to any space, wrapping around pillars, fitting into tight corners, and harmoniously flowing through even the most complex layouts. Just like a winding path through a forest, Nova C gently twists and turns to create natural movements, guiding people intuitively through their surroundings. It transforms spaces with elegance, making every environment more inviting and dynamic.

FOR EVERY PLACE, FOR EVERYONE

There’s a Nova C for every place and everyone. Whether designing a playful, kid-friendly area, optimising a compact office space, or providing a comfortable lounge experience, it’s more than just seating; it’s a concept that adapts, evolves, and brings your vision to life. Nova C is more than just functional — it’s as unique as your space.

BUILT TO WITHSTAND, DESIGNED TO ADAPT

Nova C is a proven and reliable choice, standing the test of time. Since its first installation in 2012 at Stockholm Central Station, it has still been used daily. With over 2,500 global projects delivered, it has demonstrated exceptional durability, even in high-traffic areas. Crafted from sustainable materials and designed for easy maintenance, Nova C remains a long-lasting investment. Its timeless design ensures it never goes out of style, making it a smart and enduring solution for any space.

A BIOPHILIC CONNECTION

Planters can be placed at the ends of modules or incorporated as a central feature, allowing Nova C to flow around greenery and create a more immersive, biophilic experience.

TIMELESS BEAUTY OF WOOD

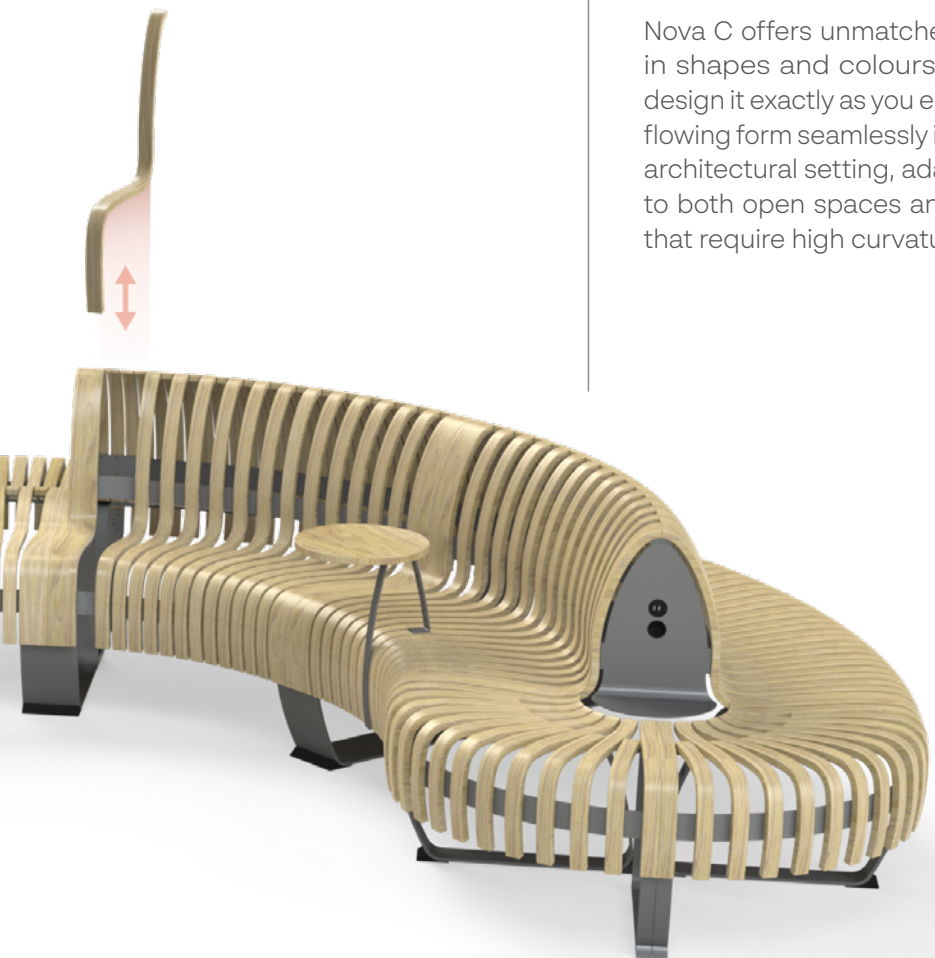

Nova C embraces the natural warmth and timeless appeal of wood, offering a seating solution that is both inviting and ergonomic. Designed to follow the body's natural contours, its wooden ribs provide a comfortable and supportive place to sit. With its classic beauty, wood enhances any space, creating a visually striking pattern. Over time, it ages with dignity, gaining character while retaining its elegance.

BUILT TO LAST

Designed for durability, all of our products are robust and resistant, supporting a longer use cycle. Each component can be replaced individually, making maintenance and repairs easy while extending the product's lifespan. The combination of responsibly sourced wood and hard wax oil allows for on-site maintenance, ensuring lasting quality.

DESIGNED YOUR WAY

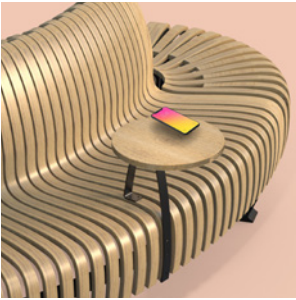

Nova C offers unmatched customisability in shapes and colours, allowing you to design it exactly as you envision. Its flexible, flowing form seamlessly integrates into any architectural setting, adapting effortlessly to both open spaces and compact areas that require high curvature.

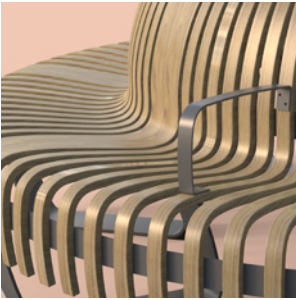

CHARGING WITHOUT LIMITS

Access to power is essential in public spaces, and Nova C keeps people connected with seamlessly integrated charging options, from rib to leg chargers. For added convenience, wireless charging tables provide a simple, on-the-go solution. Just place your phone on the surface, and it charges automatically.

A MORE EFFICIENT USE OF SPACE

Nova C maximises seating density without having to compromise comfort or accessibility. Unlike traditional linear seating, its convex and concave shapes make better use of floor space.

INSPIRED BY NATURE
DESIGNED FOR PEOPLE

Inspired by biophilic design, Nova C brings the warmth and harmony of nature into public spaces. Its flowing, ergonomic form is designed to invite interaction, making it an ideal centerpiece for placemaking. By harmoniously blending into any environment, Nova C transforms bustling areas into welcoming places where people can gather, recharge, and feel at home — wherever they are.
