Create a custom design in the Configurator at devorm.nl

Based on the design of the Hale chair, the Hale counter stool offers a distinctive classic look and no-nonsense functionality. Made from PET Felt, the seat and backrest have a soft texture and gently curved shape granting outstanding comfort. Combined with a slender steel frame, few elements grant Hale its clean expression yet surprisingly extensive functionality. The stool is easily stackable and can be table-suspended using armrests. Its fully customisable design makes Hale suitable for various meeting and dining settings.

- ISO 12947-2:2016 Abrasion resistance test (performed on PET Felt)
- ISO 12945-2:2000 Pilling Martindale (performed on PET Felt)

Care & Maintenance

Due to its porous structure, PET Felt can be easily cleaned with water. To remove most stains, it is sufficient to apply a copious amount of water and let it drip through. Do not rub the PET felt surface to avoid excessive pilling. If water is not sufficient, stubborn stains can be removed with professional cleaning products like the James cleaning set.
