- Other base options are: moulded plywood base, 4-leg steel tube base and 5 star swivel base with gas lift
- Suitable for a wide variety of private and public environments
- Qualified for contract use

AAC 121 & 121 SOFT DESIGN BY HEE WELLING

Featuring a swivel base in aluminium, the AAC 121 has a slightly more formal expression than the other variants in the series. Retaining the same high backrest and generous seat that characterises the series, this design features a functional base with legs that fan out from the centre. Available in standard and soft quilted upholstery options, with a wide choice of fabrics and base finishes, making it suitable for a broad range of public and private contexts.

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. The son of a cabinetmaker, Welling's fascination with production techniques, materials, and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts. Centred around the idea of creating technically accomplished products that can reach a wide audience, his designs are characterised by a great sense of proportion and quietly elegant aesthetics. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA), and has been nominated as Danish designer of the year in 2013 and 2014. For HAY, Welling has designed the About A series and the Hee Chair, Lounge Chair, and Bar Stool.

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
