HIGHLIGHTS

- Lightweight portable side table
- Available in a variety of colours and glosses
- Available in two sizes - Ø38 cm | and Ø48 cm
- Suitable for a wide variety of private and public environments

DLM DESIGN BY THOMAS BENTZEN

Thomas Bentzen's portable side table is aptly named 'Don't Leave Me'. Abbreviated to DLM, it features a convenient handle that allows the metal table to be carried from room to room. Although it has a lightweight and portable structure, the three slanted legs provide great stability. Available in two sizes, the DLM and DLM XL make functional alternatives to traditional coffee tables and can be used in most home or office environments. Both sizes are made in powder coated steel and come in different colour options.

Thomas Bentzen is a Danish designer who founded his own studio in Copenhagen in 2010. Previously, he was a partner at Studio Louise Campbell, where he worked for five years. He is a board member of the Danish Cabinetmakers Autumn Exhibition (SE) and an occasional teacher at the Royal Danish Academy of Fine Arts, School of Design. Bentzen is a methodical designer, who seeks to create fine-tuned products that are both engaging and durable. He works in the classic tradition of Scandinavian design – with a pragmatic, unassuming and universal outlook. Against this backdrop, he has shown a talent for creating designs that are imbued with a contemporary feel that spark a sense of joy too. For HAY, Bentzen has designed the DLM Table and Shade Bin.

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
