- Suitable for a wide variety of private and public environments
- Qualified for contract use

J41 CHAIR DESIGN BY BØRGE MOGENSEN

HAY's reproduction of Børge Mogensen's classic J41 Chair has a slightly slanted backrest and widely-spaced spindles creating an uncluttered design that offers a timeless quality. Crafted in solid wood, the design combines natural warmth and comfort with durability. Available in oak or beech in a variety of oiled, natural or coloured finishes.

Børge Mogensen (1914 – 1972) is known as one of the great Danish designers of the twentieth century for his quality furniture and strong, minimalist designs. Characterised by simple, solid lines and durable construction, his clean aesthetics and precise proportions embody Danish modernism. Having initially trained as a cabinet-maker before studying furniture design at the Danish School of Arts and Crafts, Børge Mogensen later studied architecture at The Royal Danish Academy of Fine Arts. He later became design director at the Danish Co-Operative Society, FDB, where he focused on creating well-designed, functional furniture that could be industrially produced for the general public. HAY has recreated Børge Mogensen's timeless J41 and J42 chairs, which were part of the J-Series he designed during his time at FDB.

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
