

DESIGN BY PIERRE CHARPIN

HAY

PC DESK LAMP

HIGHLIGHTS

- Part of a progressive and technologically advanced lighting collection
- A family of multifunctional task lamps that can be used free standing, desk, clamp and wall mounted
- Integrated LED light source ensuring a life span of at least 25,000 hours of use
- Stepless touch dimmer
- Concealed gas springs
- The lamp is suitable for both private and office environments
- Qualified for contract use

PC DESK LAMP DESIGN BY PIERRE CHARPIN

Pierre Charpin's PC Desk Lamp is a precisely engineered task lamp with a sleek, functional design. Featuring an aluminium head, double-swing arms, and ABS base, the lamp's concealed gas springs enable the arms and head to hold their position wherever they are moved. It also features an integrated-touch dimmer switch that provides control over brightness levels. The lamp's adaptable design and refined aesthetics blend seamlessly into both domestic and professional environments and is qualified for contract use as a task light.

A trained artist, Paris-based Pierre Charpin has focused on furniture and object design since the 1990s. Influenced by his artistic background, drawing is an essential part of his creative process, using simple vocabulary and elementary forms to create sensual objects. Pierre's research on form and colour characterises his work and can be seen in both limited edition products and industrial products. For HAY, he has designed the PC Lamp collection.
