HIGHLIGHTS

- A family of tables featuring round and oblong shapes in different powder coated colours, brass and polished stainless steel
- Available in different sizes and heights
- Suitable for a wide variety of private and office environments

SLIT TABLE DESIGN BY HAY

HAY's Slit Table is a geometric steel side table inspired by paper origami techniques. The slim frame appears folded beneath the tabletop, creating a simple yet sculptural form that is reminiscent of traditional Japanese paper art. The Slit Table is available in a selection of different shapes and sizes, and is offered in a variety of contemporary colours and finishes. Compact and versatile, it can be used on its own or arranged in clusters in diverse private or public settings.

Slit Table High | Light yellow powder coated

Slit Table | Mirror polished

Slit Talbe Round | Black powder coated

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
